Start your **MyPlant** collection today!

This elegant range of patio and garden plants has been specially developed and selected as easy-care, weather tolerant, plants.

The **MyPlant** collection is made up of only the very finest plants suitable for both patio and garden use. All plants in the range have been carefully hand-selected from our **MyPlant** nursery in County Kilkenny, Ireland.

The plants in this range are stunning showpieces to help you create a special feature, look or focal point for your outdoor living space.

MyPlant Provenance

Our various **MyPlants** come from breeders, keen amateur gardeners, or nursery owners around the world who have discovered a very unusual and exciting new plant. **MyPlants** originally come from a wide range of geographic locations, North America, South Africa, New Zealand, Australia, United Kingdom.

However once the first mother plants arrive all the plants in the **MyPlant** range are then propagated and grown at our nursery in Kilkenny, Ireland. This is where our expert team take over and the many years of experience in plant science and plant growing ensures conscientious Quality Approved production methods are used.

You are our focus at **MyPlant**

Our primary focus is on selecting, growing and marketing a limited number of brilliant **MyPlant** Plants that make gardening and plant care a healthy, enjoyable and relaxing pass-time.

MyPlants make gardening and plant care easy for you, and once you achieve success with one **MyPlant** we are sure that you will be on the road to becoming a passionate **MyPlant** gardener!

Remember you don't need to own a garden to enjoy a plant and you do not need to be an expert to enjoy **MyPlant**. We make it easy for you.

Here is what makes the **MyPlant** collection so unique

ECO-FRIENDLY & NURSERY GROWN: - Plants in the range are thoroughly researched to ensure they are non invasive, GM free, sourced only from ethical breeders and not uprooted from native environments. All plants are produced locally and delivered to your favourite garden centre in the shortest time and route possible.

ALL YEAR ROUND INTEREST: - Most of our patio and garden plants are evergreen and architectural in style to bring year round interest to your home, garden, patio or balcony area.

LOCALLY GROWN PLANTS -All our plants are nursery grown locally in Ireland. At **MyPlant** we are also currently breeding and selecting our own plants right here in Ireland as well as visiting breeders overseas. All these plants will be added to the **MyPlant** collection in the future. Be sure to keep up to date at www.myplant.ie

How **MyPlant** Research & Development works continuously for you.

Once selections are made and agreed with the original breeder, nurseryman or gardener a number of individual specimens are brought into Ireland to begin production under the supervision of Plant Health Inspectors in the country of Origin and Inspectors from the Irish Department of Agriculture Plant Health Section. From this point the plants are tested at the **MyPlant** nursery dedicated trials area for at least one year, but possibly for up to three years to ensure suitability for a range of garden uses and the Irish climate in particular.

Once a plant has been selected for the **MyPlant** range then the process of propagation and professional production slowly begins so that these fantastic plants can be brought to you. This is the process necessary

to find only the very best, truly exceptional, highly desirable and slightly out of the ordinary **MyPlants**, so that you can have something different, reliable and special to enjoy in your garden, patio or balcony!

It often takes 4-5 years from the time we find an exciting new **MyPlant** until we take it to market. Unfortunately not every plant that we are initially excited about comes to market. It may need further examination or suggestions for planting in limited situations. Through our rigid testing and trial process, only 1 in 20 plants on average, meet the criteria to join the **MyPlant** approved range.

We hope our selections meet your approval and we would be happy and interested to hear your opinions and feed back by contacting us through www.myplant.ie
